

The Mental Health Professionals Network
and
The Royal Australian College of General Practitioners
Present

A Collaborative Mental Health Care Initiative

The Mental Health Professionals Network (MHPN) is an Australian Government funded collaboration between **The Royal Australian College of General Practitioners, The Royal Australian and New Zealand College of Psychiatrists, the Australian Psychological Society and the Australian College of Mental Health Nurses.**

The Mental Health Professionals Network (MHPN) is offering facilitated workshops for groups of mental health practitioners working under Better Access within the same local area. The aim is to provide an informal networking opportunity and ultimately enhance and increase referral pathways and opportunities for collaborative care in the primary care sector.

WHAT IS INVOLVED

- A facilitated case study may be used to discuss collaborative care, issues around each clinician's expertise and referral pathways.
- Network with local mental health care colleagues in an informal setting.
- Receive resources and access to an expanded network of clinicians.
- Workshops are catered and participants in private practice receive funding of \$150 (plus GST) to attend.
- Endorsed by the RACGP for QA&CPD points.
