

# McGraw-Hill is proud to announce the first book written specifically for Australian practice nurses

This new book is a milestone in the development of practice nursing as a specialty.

**General Practice Nursing** offers practice nurses information on a range of clinical and professional topics in a concise, easy to read format. It offers evidence based, contextual information supported by case studies to assist nurses in applying theory to practice.

Clinical topics such as immunisation, triage, wound management and pharmacology are coupled with general topics such as the role of the practice nurse, the Australian health system, evidence based practice, continuing professional development and nurse led care.

To encourage reflective practice, each chapter will include questions throughout the text, testimonials and reflection questions.

By Lynne Walker, Elizabeth Patterson, William Wong and Doris Young

ISBN: 9780070276949

AUS\$100.00

Available May 2010

518 pgs. Full colour design. Softcover
